

## Outro To R

## You me and NSE

Non-standard evaluation is bananas!

## ggplot2 - Graphics at the speed of thought

Really fast plotting with ggplot2.

```
library(ggplot2)
dat <- data.frame(let <- sample(letters[c(1:5,1:3,1:2)], 100, replace =
```

## ggplot2

```
ggplot(dat) +  
  geom_bar(aes(x=let, fill = let), stat="count")
```
